#### **DETAILED ACTION**

## Response to Amendment

1. This action is in response to the amendment mailed April 18, 2002.

Claims 1-4 was canceled and new claims 5-8 were added and are pending.

### Claim Rejections – 35 USC 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

- 3. Claim 8 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
- a. In claim 8, the phrase, "coating applied to such an extent as to not hinder ink absorption" is indefinite. 'Applied to such an extent as to not hinder' does not provide a requisite degree.

### Claim Rejections – 35 USC § 102(e)

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

Application/Control Number: 09/673,217 Page 3

Art Unit: 1774

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

- 5. Claim 5 is rejected under 35 U.S.C. 102(e) as being anticipated by Suenaga et al (U.S. 6,133,170).
- 6. Suenaga discloses mercerized pulps (column 7, line 5) having weight percentage in the range from 10 to 100% (column 7, lines 12-13).

### Claim Rejections – 35 USC § 103(a)

- 7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
  - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- ∠8. Claims 5-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Suenaga et al (U.S. 6,133,170).
  - 9. Suenaga discloses mercerized pulps (column 7, line 5) having weight percentage in the range from 10 to 100% (column 7, lines 12-13). Suenaga discloses coating recording paper and copying paper (column 9, lines 17-26). The reference is silent as to the coating, which is applied for improving ink absorption as per instant claim 7. Since no such coating is disclosed as being applied, the limitation of claim 7 is met. Suenaga does not disclose the liquid transfer length in the Bristow method as being 100 mm or less. The determination of the liquid transfer length by Bristow's method is according to

J. Tappi No. 51-87 is a product by process limitation. "Even though product-by-process claims are limited by and defined by the process, determination of patentability is based on the product itself. The patentability of a product does not depend on its method of production. If the product in the product-by-process claim is the same as or obvious from a product of the prior art, the claim is unpatentable even though the prior product was made by a different process." *In re Thorpe*, 227 USPQ 964, 966. Although the reference does not explicitly disclose ink jet recording paper, one of ordinary skill in the art would commonly use ink jet recording paper, which serves the same function as the

## Claim Rejections – 35 USC § 102(b)

10. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

copying and recording paper.

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 11. Claim 5 is rejected under 35 U.S.C. 102(b) as being anticipated over WO 99/00541.
- 12. WO '541 teaches ink jet printable paper with fibers (page 1, lines 9-27) with 0 to about 70 percent by weight of mercerized fibers (page 1, lines 36-37).

Application/Control Number: 09/673,217 Page 5

Art Unit: 1774

### Claim Rejections – 35 USC § 103(a)

13. Claims 5-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over WO 99/00541.

14. WO '541 teaches ink jet printable paper with fibers (page 1, lines 9-27) with 0 to about 70 percent by weight of mercerized fibers (page 1, lines 36-37). The reference is silent as to the coating, which is applied for improving ink absorption as per instant claim 7. Since no such coating is disclosed as being applied, the limitation of claim 7 is met. WO '541 does not disclose the liquid transfer length in the Bristow method as being 100 mm or less. The determination of the liquid transfer length by Bristow's method is according to J. Tappi No. 51-87 is a product by process limitation. "Even though product-by-process claims are limited by and defined by the process, determination of patentability is based on the product itself. The patentability of a product does not depend on its method of production. If the product in the product-by-process claim is the same as or obvious from a product of the prior art, the claim is unpatentable even though the prior product was made by a different process." *In re Thorpe*, 227 USPQ 964, 966.

### Response to Arguments

15. Arguments made in regards to rejection made under 35 USC 103(a) as being unpatentable over Cessna (U.S. 5,853,901) is most due to grounds of new rejection.

Page 6

Application/Control Number: 09/673,217

Art Unit: 1774

Arguments made in regards to rejection made under 35 USC 102(b) as being anticipated by Cessna (U.S. 5,853,901) is moot due to grounds of new rejection. Arguments made in regards to rejection made under 35 USC 103(a) as being unpatentable over WO 99/00541 has been considered but is unpersuasive. Applicant argues WO '541 does not teach or suggest that both the high ink absorption speed and high ink coloring density can be obtained by using mercerized pulp in an ink jet recording paper. Applicant's invention does not claim 'high ink coloring density obtained by using mercerized pulp in an ink jet recording paper.' Furthermore the invention is not directed towards the process of obtaining high ink coloring density but is directed towards an ink jet recording paper of mercerized pulp. Applicant argues Bristow's method is not a product by process limitation but determines liquid transfer length as an index for representing the property of the water absorbing speed of paper and not a step in a method for producing the ink jet recording paper. The Bristow method is not a part of the article and is directed to 'determining' liquid transfer length, which is a process that leads to the actual article.

16. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

than SIX MONTHS from the date of this final action.

Art Unit: 1774

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later

#### Conclusion

17. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lawrence Ferguson whose telephone number is (703) 305-9978. The examiner can normally be reached on Monday through Friday 8:30 AM - 4:30PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cynthia Kelly can be reached on (703) 308-0449. Please allow the examiner twenty-four hours to return your call.

The fax phone numbers for the organization where this application or proceeding is assigned are (703) 872-9310 for regular communications and (703) 872-9311 for After Final communications. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703)

308-2351.
